

# REEL EDUCATION

**The Angling Trust and Shakespeare have launched a new primary school project 'Reel Education'. The project engages students in the KS1 and KS2 stages of education about the importance and value of our rivers, lakes and seas and to help develop an awareness of the sport of fishing.**

The Angling Trust can be booked to come into a primary school and will provide all learning materials for the day, including lesson plans, activities and exercises in Science, Maths, and Art. As well as in-class activities, Angling Trust coaches will provide P.E style fishing and environmental activities that will inspire and generate interest in the outdoors and the environment.

- ➡ 'Reel Education' project is a Free Primary school resource
- ➡ Developed by Angling Trust and Shakespeare
- ➡ Lesson plans and activities created by teachers and linked to the national framework
- ➡ Focussing on Art, Maths & Science in curriculum-based activities
- ➡ P.E and games led by licensed Angling Trust coaches
- ➡ Shows the link between Environment, Nature and Angling
- ➡ Full day of exercises, activities and lesson plans
- ➡ Develops local links to fishing events

# REEL EDUCATION

‘Chris and the team were excellent. They showed their passion for the job and were very professional. They accommodated for all learners and made their visit very memorable.’

‘The children absolutely loved the games, and were very engaged throughout. This was the case in all age groups. The children really gushed about how much they enjoyed the sessions.’

‘The children in my class absolutely loved the day! They learned so much, and it was a really engaging and exciting range of activities for them. Will definitely be running the day again next year!’
