

Media Policy

At angling sessions supported by the Angling Trust we sometimes take photographs and make films to promote our organisation and angling.

We may use these:

- On our websites
- In our social media
- For our promotional materials

If you would prefer to **NOT** have your photograph taken then please let the photographer know.

Attendees connected to the session may also take photos or make a video for their own private use. People with no connection to the session are respectfully asked to **NOT** photograph or film in this area and may be asked to leave.

We will ask you to confirm that you understand this policy when you register for the angling session.

Thank you and enjoy your fishing session!
